

Why Triton Hearing?

Our vision is to be the hearing care provider of choice for New Zealanders. To achieve this we look to the future to inform what we do today. That has provided those who work for Triton Hearing a unique opportunity to be part of the most progressive audiology company in New Zealand and also part of a global innovator – Sonova.

It is certainly an exciting time to be part of audiology in New Zealand. Hearing is intrinsic to our day to day lives and the recent NZ Trak Report launched in Wellington coinciding with international hearing week, highlighted the thousands of New Zealanders who are in need of hearing solutions – from taking the first step to getting the right advice and outcome to suit their specific needs.

Care – for our Triton team and our clients

With the highest customer service rating of any provider in New Zealand*, our clients always come first and their care is at the heart of what we do.

To look after them our Triton team comprises some exceptional talent who have their own needs and aspirations. They enjoy the freedom to help those with hearing loss make the right choices around hearing devices, with a range of solutions to suit the individual. Our clinicians are able to prescribe the most appropriate devices for their clients. This is a unique commitment; only Triton contractually obliges our clinicians to prescribe their choice of what is right for the client.

Innovation

Our unique TeleAudiology service brings innovative technology delivered with a personal touch to those living in remote parts of the country or where no audiology service has previously been available. This is one of the many ways thinking outside of the box has improved people’s lives and further entrenched the Triton Hearing brand in New Zealand.

Our new company structure has opened up a wide range of opportunities and career progression for people to develop, play to their strengths and work in a location that suits their lifestyle. Our focus for the future means we’re looking for talented clinicians to join our expanding network. Wherever you are in your career, whatever your lifestyle or circumstances, we have a range of roles that are worth finding out about.

You may be interested to discuss the following opportunities:

Area Manager – HAWKES BAY, PALMERSTON NORTH

This is a great opportunity to continue to improve peoples’ lives and lead clinical teams to achieve outstanding results. This is a newly created role to help us stay at the forefront of our industry. In addition to your role as a senior clinician you will manage a clinic and lead a team of clinic managers in your area, inspire, support and mentor provisional clinicians and clinical educators, promote Triton Hearing’s vision and ensure the company’s strategic initiatives are implemented consistently. If you would like to know more about the role or the available locations please contact, in absolute confidence, Annette Crockett, Recruitment Advisor on 027 276 6060 or hrmanager@tritonhearing.co.nz.

Clinic Manager – PAKURANGA, TAUPO, ASHBURTON, PAKAKURA, NEW PLYMOUTH

As the direct line manager for Clinicians, Ear Nurses and Client Service Representatives, you’ll be responsible for their performance, development and coaching. You’ll ensure the company’s strategic initiatives are well communicated, understood and implemented at your clinic to promote Triton Hearing’s vision. By supporting the Area Manager and our Operations Management Team, you’ll be effective in delivering exceptional client service and achieving the company’s financial outcomes. In addition to your clinical role, you will manage day-to-day clinic operations, drive performance, develop team engagement, and continue to build our brand reputation in the local community. If you would like to know more about the role or the available locations please contact, in absolute confidence, Annette Crockett, Recruitment Advisor on 027 276 6060 or hrmanager@tritonhearing.co.nz.

Audiologist

You may still be studying for your MAud or you are a senior clinician looking to fulfil your ambition to work for an organisation where you choose the right outcome for the client. You may be looking for a change in clinician direction and support our paediatric services or the rollout of our vestibular triage service and Lyric services. If an improvement to work/life balance is what you’re looking for, we have a number of part-time positions available and fully support a staged return to work programme that is right for you and your circumstances. To find out more about the audiologist positions we have please contact, in absolute confidence, Annette Crockett, Recruitment Advisor on 027 276 6060 or hrmanager@tritonhearing.co.nz.

TeleAudiology Clinician

Our unique new service is operating in various clinics around New Zealand. If you are keen to find out more about this service and how it can offer you the level of work flexibility you never thought possible please contact, in absolute confidence, Craig Lett our Head of Innovation on 027 538 2062 or craig.lett@tritonhearing.co.nz.

As New Zealand’s fastest growing audiology provider and thought leader, Triton Hearing offers a unique career opportunity. I am more than happy to talk to you about our strategic direction if you would like to call or email me. I always enjoy the opportunity to discuss our wonderful industry and our plans for the future. I would be delighted to host you at our offices in Remuera where our flagship clinic is located.
